# PREFACE.

---

THE present volume is number nine of the Alphabetical Index of the Births, Marriages, and Deaths recorded in the City of Providence, and is the fifth of a set of six volumes to contain an index of the births, marriages, and deaths recorded in this city for the years 1871 to 1890, inclusive. The present volume is the first of two volumes containing an index of the births for the years 1871 to 1890. It is printed from a card index made in 1890 and 1891, but to which many names have since been added.

The record of births in Providence is, as in all the cities of the United States, far from complete, and it also contains very many errors. Previous to 1895 the statutes provided for obtaining returns of births solely by a house to house enumeration, which was in Providence made semi-annually. Even in a small town this is not a satisfactory method, and as this city increased in size the number of births that escaped record also increased. During the twenty years covered by these two volumes, it is probable that not more than sixty or seventy per cent of the births were recorded. Since 1890 the record has been much more nearly complete. The records which are indexed by the present volume contain not only the names of living children born in Providence, but of the children of residents who happened to be born outside of the city, and also the returns of still-births.

Unfortunately the individual records are far from correct. It is very often impossible even for skilled enumerators to secure a perfect return, and in the case of the children of those speaking a foreign tongue the difficulties are greatly increased. Hence it happens that the name of evidently the same person is in different records spelled in different ways. As these differences only appeared when the names were brought together at the time of making the index, it was manifestly impossible in most instances to determine which form of the name was erroneous. Therefore no attempt has been made to eliminate these differences in names and spelling, except in such few instances as the requisite proof was at hand.

The following table shows the number of births recorded each year from 1871 to 1880, inclusive, and also the birth rate, *i. e.*, the number born to each 1,000 of the population :

YEAR.	LIVING CHILDREN.	STILL-BORN.	TOTAL.	BIRTH RATE.
1871.....	1,847	113	1,960	27.22
1872.....	2,064	142	2,206	29.37
1873.....	1,973	155	2,128	27.20
1874.....	2,599	181	2,780	28.83
1875.....	2,493	171	2,664	26.46
1876.....	2,482	149	2,631	25.92
1877.....	2,398	145	2,543	25.18
1878.....	2,488	139	2,627	25.68
1879.. ..	2,400	122	2,522	24.35
1880.....	2,506	121	2,627	25.05
<hr/>				
Totals.....	23,250	1,438	24,688	

The records from which the above table was made are contained in the bound volumes of Records of Births and extend from page 167 of volume 9 to page 37 of volume 12. During the past few years a considerable number of names, omitted when these records were made, have been added, and most of these are contained in volume A. 1. of the bound records, provided for such additions.

The following table shows the number of names in the present volume under each letter of the alphabet :

A.....	615	J.....	407	S.....	2,112
B.....	3,042	K.....	863	T.....	832
C... ..	2,453	L.....	1,043	U.....	86
D.....	1,409	M .....	3,631	V .....	136
E.....	314	N.....	306	W.....	1,308
F.....	1,076	O.....	558	Y.....	79
G... ..	1,444	P.....	1,010	Z.....	18
H.....	1,925	Q .....	86		
I.....	68	R.....	1,125		
<hr/>					
Total.....					25,946

The number of names in the above does not correspond with the number in the preceding table chiefly owing to additions to the records since the publication of the registration reports from which the data in the first table were taken.

CHARLES V. CHAPIN,  
*City Registrar.*

PROVIDENCE, March 24, 1903.

# BIRTHS

## RECORDED IN PROVIDENCE,

FROM 1871 TO 1880 INCLUSIVE.
